

NCI
Council of Research Advocates (NCRA)
NCRA Organizational Engagement Working Group

Function Statement

The NCI Council of Research Advocates (NCRA) Organizational Engagement Working Group will explore ways for national and community-based cancer-related organizations to work better together to communicate with and educate policy makers and the public. The Working Group will determine effective methods to express views and ideas to NCI leadership with respect to promoting and advancing cancer research and supporting NCI's mission to prevent, detect, diagnose, and treat cancer. The Organizational Engagement Working Group reports to the NCI Council of Research Advocates.
